IMPROVE SIAM LAND BY WATER SYSTEMS

Hongkong—The Siamese government has appropriated \$555,000 for the preliminary expenses in connection with the Prasaak irrigation project, which will ultimately cost \$4,250,000. This scheme provides for a great canal for Prasaak and fuller development of the existing canal system of Klong Rangsit. The project is designed to reclaim much waste land in lower Siam for rice cultivation. Only the first unit of the scheme will be developed at present. It is estimated by the British experts who have been employed to make a survey of the situation that a total expenditure of \$50,000,000 within 25 years will make it possible to reclaim 2,400,000 acres of land in lower Siam.

DISCOVER CURE FOR ERUPTIVE TYPHUS

Paris, Aug. 2.—A cure for eruptive typhus, the disease which made such terrible ravages in Serbia, has been discovered by Doctors Nicolle and Blaisot. It is a serum which they found after extensive experiments. So far 23 serious cases have been treated by injections which were followed by rapid recovery in a number of patients. The injections prevented complications so frequent in typhus and reduced the death rate from 25 to 3 per cent.
